

Company Name: Advantage IR (www.advantage-ir.com)

Job Description:

Advantage-IR is a fast-growing outpatient vascular and interventional radiology lab seeking to hire a motivated full-time and experienced Physician Assistant or Nurse Practitioner in our **Scottsdale, AZ clinic**.

What will you be doing:

The selected candidate will work with a variety of patients to assist our doctors in the initial consultation (at Scottsdale clinic, but also our consult offices in Glendale, Chandler, and Mesa), patient selection for treatment, pre-procedural workups, and post-procedural follow-ups for the following minimally invasive interventional radiology work:

- Low Extremity Revascularization for patients with Peripheral Artery Disease
- Embolization procedures including, but not limited to:

- o Prostate Artery Embolization
- o Uterine Fibroid Embolization
- o Internal Hemorrhoid Embolization
- o Liver Tumor Chemo Embolization
- o Genicular Artery Embolization

You will also be expected to travel to our consultation sites in Glendale, Chandler, and Mesa, AZ (travel reimbursed at IRS guidelines). You may also be asked to assist with marketing to community referring physicians.

We have a diagnostic Ultrasonographer who works on-site to assist in the patient assessment process and who will work in conjunction with our provider(s). We have Medical Assistants and other support staff to facilitate the clinic-flow process for all providers involved.

These are state-of-the-art endovascular centers are high-end and with a concierge feel. Our services are exceptional, and Advantage IR is one of the first companies nationally to introduce interventional radiology to the outpatient market. In addition, these services are cutting edge and the future of healthcare, making surgery obsolete where possible.

What do you bring to the Advantage IR:

PA or NP licensure in state of practice and/or multi-state license

- ACLS certification
- At least three (3) years' experience
- Proven working experience with Physicians on assessments
- Ability to handle a fast-paced environment with the ability to prioritize tasks
- Familiarity with EMR and EHR software programs
- Excellent communication and problem-solving skills
- Be self-motivated, have a strong work ethic and sense of confidentiality
